

Online Marketing Strategy

Borma Dago — bormadago.com & Borma Dago App

Objective

Grow online sales revenue through our own channels (bormadago.com and the Borma Dago app), with no marketplace commission.

Revenue = Number of Customers × Purchase Frequency × Average Order Value

Every activity in this document must move at least one of these three levers.

*None of the marketing below works long-term without a great customer experience — see the **Key Reminder** at the end of this document.*

Target	Profile	Lever to pull
B2B — HORECA, warung, and small businesses around Dago	Thin margin, large and recurring orders.	Number of clients and reorder frequency.
B2C — retail customers	High-margin goods: household items and fashion.	Average order value.

Foundation: The Offer

Content brings people in; the **offer** is what makes them buy and come back. Build the offer first, then the content.

Borma for Business (B2B)

Solve three problems business owners face: time lost shopping, late stock, and juggling too many suppliers.

- **One order for all stock:** staples, food ingredients, spices, beverages, cleaning supplies, packaging.
- **Scheduled delivery** around the Dago area (e.g. every [day] and [day]).
- **Fast reorder:** saved regular shopping list, confirmed in the app or via a dedicated business admin.
- **Guarantee:** missing or damaged items replaced in the next delivery (subject to the complaint-handling SOP, see Bottom of Funnel).
- **Clean invoices** for business bookkeeping.
- **Competitive pricing** for business-volume purchases.

B2C: high-margin goods

- **Bundles:** "New Kitchen Pack", "Boarding-House Starter Pack", "1 Outer, 3 Looks".
- **Complementary recommendations** on product and checkout pages (buy a wok → offered a spatula and cutting board).

Any free-shipping proposal (B2B and B2C) MUST be approved by management and carefully calculated before launch. Compare shipping cost per order against margin per order, then set a minimum order value so every order stays profitable. This is critical for B2B, where margins are thin.

Figures in [] are to be filled in based on data and management policy.

A. Instagram & TikTok

Funnel stage	Job
Top of Funnel	Reach new people through viral content.
Middle of Funnel	Build trust through education and behind-the-scenes process.
Bottom of Funnel	Sell, with a clear call to order on bormadago.com or the app.

Every piece of content: **Hook** (first 3 seconds stop the scroll) → **Retain** (watched to the end) → **Reward** (viewer leaves with an idea, tip, or solution).

Where content ideas come from: talk to B2B customers

The best content themes come from real customers. Chat with HORECA and warung owners who already shop at bormadago.com (via WhatsApp, a short call, or a quick chat when delivering), then turn their answers into content.

Ask them (in Indonesian)	Use it for
"Kenapa belanja stok usaha di Borma Dago?" "Apa anaknya belanja di sini dibanding di tempat lain?" "Apa yang paling membantu usaha Bapak/Ibu?"	Content themes and hooks , using the customer's own words (e.g. "Nggak perlu keliling pasar lagi").
"Ada yang perlu kami benahi?" "Kendala apa yang sekarang dirasakan?" "Lebih enak kalau...?"	Feedback for management and operations to fix. Once fixed, it becomes content too: "Kalian minta, kami perbaiki."

- Write down each answer in a simple sheet (customer, business type, answer, date) so recurring themes are easy to spot.
- Happy customers from these chats are natural candidates for testimonials (see Middle of Funnel).

1. Top of Funnel — Reach

- **Fashion:** outfits inspired by [public figure], "1 item, 3 looks", customer makeovers using Borma products.
- **Extreme budget recipes:** "Café-style meal for the whole family for just Rp35k", all ingredients from Borma.
- **Cooking vlogs** using kitchen tools sold at Borma.
- **Trends and moments:** viral audio, trending news, holidays. Controversial content is optional and must stay brand-safe.

2. Middle of Funnel — Trust

- **Pinned on profile:** "Why shop at bormadago.com?" — convenience, service, delivery, how to order.
- **Behind the scenes:** picking, packing, and delivery to the customer.
- **Education for business owners:** warung stocking tips, how to calculate menu COGS.
- **Ordering tutorials** for the app and bormadago.com.

B2B customer testimonials

Feature real HORECA and warung owners who shop at bormadago.com and **reorder regularly**. Repeat orders are the strongest proof that the service works.

- **Who:** business clients with a track record of repeat orders on bormadago.com.
- **Formats:**
 - **WhatsApp screenshots** of customer feedback (blur phone numbers).
 - **Reels and IG stories** shot by our team at the customer's business.
 - **Customer's own story** tagging @bormadago, then reposted to our stories and saved to a "Testimoni" highlight.
- **Incentive (optional):** a bonus product, shopping voucher, or similar for business owners (PIC) willing to give a testimonial. Type and value subject to management approval.
- **Consent:** get the customer's permission before posting their name, face, business name, or chat.
- Incentives apply to social media testimonials only, **not Google Maps reviews** (section D): Google's policy prohibits incentivized reviews.
- Reuse the best testimonials in testimonial ads and on the B2B page of bormadago.com.

3. Bottom of Funnel — Sales

Borma for Business ads

Script framework (in Indonesian):

"Buat kamu pemilik [restoran/kafe/warung] yang lagi cari supplier [barang, berdasarkan data]... Di Borma Dago semua stok usahamu ada di satu tempat. Order lewat aplikasi Borma Dago atau bormadago.com, barang diantar ke tempat usahamu. Kamu fokus urus bisnis, urusan belanja stok biar kami yang bantu."

Create **10 ad versions** (different hook, script, footage) for testing. See the ad testing principle below. Write hooks in the customer's language, ideally taken from customer conversations (see "Where content ideas come from").

Footage ideas:

- Owner running between shops → cut to a one-tap order in the app.
- Busy warung, empty shelf → Borma courier arrives with stock.
- Screen recording of an app order → goods arrive at a restaurant kitchen.
- Behind the scenes: picking, quality check, packing, delivery.
- Fast listicle: all items laid out in one delivery.
- Short testimonials from 2–3 business owners.
- Admin responding to a customer chat, replacement item sent out (only once the guarantee below is approved).
- Close-up of products and price tags.

Guarantee ads — management action required. Any ad or content promising that missing or damaged items will be replaced can only run once management has approved the guarantee and set a written **complaint-handling SOP for missing or damaged items**, covering at least:

- **Reporting window:** complaints accepted within [x] hours of receipt.
- **Proof required:** photo/video of the goods on arrival (unboxing), matched against the delivery note.
- **What qualifies:** missing items, damage in transit, expired or defective products. Change of mind does not qualify.
- **Resolution:** replacement in the next delivery, refund, or store credit, and who decides which.
- **Owner and response time:** who handles complaints (e.g. business admin) and the maximum response time [x hours].
- **Logging:** every complaint recorded and reviewed regularly to fix root causes (picking, packing, courier).

Other sales ads and content

Ad principle: test, pick the winner, scale.

- **Test:** launch 10 ad formats with a small testing budget each.
- **Pick:** compare results and keep only the ads that work (most orders / profile visits at the lowest cost).
- **Scale:** put the budget only into the winning ads; cut everything else.
- **Be specific:** the more specific an ad is about who it is for, the better it performs. A clear target audience (e.g. "café owners in Dago", not "everyone") beats a broad one.
- **Initial boosted posts (optional, testing phase):** start with this targeting as a test:
 - Radius 3–5 km around Borma Dago.
 - Objective: profile visits.
 - Interests: supermarket, culinary, business owners, food supplies, and other relevant keywords.
 - Review results, move budget to the best-performing ad formats, and cut the ones that don't work.
 - Once a format is proven, gradually expand to a wider radius.
- **Hard-selling reels:** highlight product features and Borma Dago's service advantages, ending with one call to order.
- **B2C:** reels on bundles and high-margin goods, e.g. "Alat dapur yang bikin masak 2x lebih cepat", "1 outer, 3 gaya".

B. Google SEO (On-Page & Off-Page)

End goal: bormadago.com ranks organically on page 1 of Google for keywords business owners (HORECA/warung) in Bandung search for, and searchers check out directly on the site, so over time we no longer need to pay for ads. Ads = renting a shop; SEO = owning the shop.

a. Keyword research

- Tools: Google Keyword Planner, keywordtool.io (long tail), Google related searches.
- **Short head:** supplier, grosir (wholesale), sembako (staples), bahan makanan (food ingredients), restaurant/café/hotel supplies.

- **Long tail** (+ area, business type, product name), e.g. "supplier bahan makanan restoran Bandung", "grosir sembako Dago", "supplier horeca Bandung". Keywords stay in Indonesian because that is what customers type; check volume in Keyword Planner.
- **Competitor research:** search the keywords on Google, ignore marketplaces and major media, and compare their site structure with bormadago.com.
- Collect ±300 keywords, add **Group** and **Add Keyword** columns, and map each group to one page on bormadago.com.

b. Google Search Ads first

- **1 keyword group = 1 ad group = 1 landing page**, pointing to category/product pages so visitors can check out immediately.
- Set up **conversion tracking** at checkout; keywords proven to generate orders become SEO priorities.
- Run during **business hours**. Relevant landing pages raise Quality Score and lower cost per click.
- Once a keyword ranks organically, reduce its ad budget gradually.

c. bormadago.com page optimization (on-page)

- **One keyword per page:**
 - **B2B page** "Borma for Business" (create if missing) → supplier/wholesale keywords.
 - **Category pages** → one keyword per category (staples, food ingredients, beverages, household, fashion, etc.).
 - **Product pages** → long-tail keywords.
- Keywords go into the meta title, meta description, URL, headings, descriptions, and image alt text.
- Write original product descriptions (not copied from suppliers), with no keyword stuffing.
- Technical: fast site, mobile-friendly, easy checkout.
- The "Why shop at bormadago.com?" page doubles as a landing page for ads and content.

d. Blog articles and internal links

- Articles targeting non-buying keywords business owners search for, each linking to a target page and to other articles. Examples:
 - "How to Calculate Menu COGS for a Café" → B2B Restaurant & Café page
 - "Must-Have Stock List for Opening a Warung" → staples category
 - "How to Store Ingredients Longer for Food Businesses" → food ingredients category
- Link pattern: 1 to the target page, 1 to a trusted external source, the rest to other articles.
- Repurpose each article into IG/TikTok content and broadcast material: one piece of research, three channels.

e. Local SEO – Google Business Profile

- Set up and optimize the Google Business Profile, NAP, photos, map references, and reviews: see section D.
- Local keywords (Bandung/Dago) are where Borma can beat the big players.

f. Off-page SEO

- **Basic links:** local directories, forums/Q&A (Quora, Bandung culinary business Facebook groups), Facebook page/YouTube.
- **Social signals:** share articles and product pages on IG, TikTok, Facebook, and WhatsApp broadcasts.

- **Basic traffic:** IG/TikTok ads and Google Ads pointed at bormadago.com.
- **Powerful links:** guest posts/features in Bandung culinary and SME media, partnerships with PHRI or SME communities.
- Keep the ratio **(basic links + social signals) : powerful links = 9 : 1** so growth looks natural.
- Avoid automated link software (GSA), PBNs, and bulk link buying: they risk a Google penalty.

C. Email Marketing & WhatsApp Broadcast

Goal: get people who already know Borma Dago to buy **more often** and **more per order**, directly on bormadago.com or the app.

Quick start: 5 steps

Step	What to do	Details
1	Set up the email platform and sending domain (SPF, DKIM, DMARC).	Point 6
2	Import contacts and give each one 3 tags: intent + product interest + source.	Point 1
3	Turn on 4 core automations: Welcome, Abandoned cart, After purchase, Re-engagement.	Points 3–4 + Appendix
4	Schedule monthly broadcasts from the promo calendar, plus a payday broadcast.	Points 2 & 5
5	Review results every month and keep what works.	Point 6

Golden rules

- **Separate B2B and B2C** from day one: different language, offer, and order size.
- **Value first:** about 3 useful emails for every 1 promo.
- **One email, one goal, one button** linking to bormadago.com or the app.
- **B2C:** lead with fashion and household goods (higher margin).
- **Short and mobile-friendly:** most customers read on their phones.

1. Segmentation

Principle: group contacts by **intent** (how close they are to buying), **product interest**, and **source** (where the contact came from).

Dimension	Borma Dago segments	Example tags
Intent	Lead: signed up / claimed a voucher, no online order yet Enquiry: has an account, abandoned cart, or asked via WhatsApp but did not check out Customer: ordered online at least once (Repeat: 3+ orders in 90 days; VIP: top 10% by spend)	lead, enquiry, cart_abandon, customer, repeat, vip
Product interest	Daily groceries · Fresh (vegetables, fruit, meat) · Fashion · Household · Wholesale/B2B	minat_fresh, minat_fashion, minat_household

Dimension	Borma Dago segments	Example tags
Customer type	B2C household · B2B (HORECA, warung, office/SME)	b2c, b2b_horeca, b2b_warung
Source	bormadago.com checkout · Borma Dago app · Borma for Business form · QR at cashier/receipt · IG/TikTok voucher · bazaar/event	src_web, src_app, src_b2b, src_toko, src_sosmed

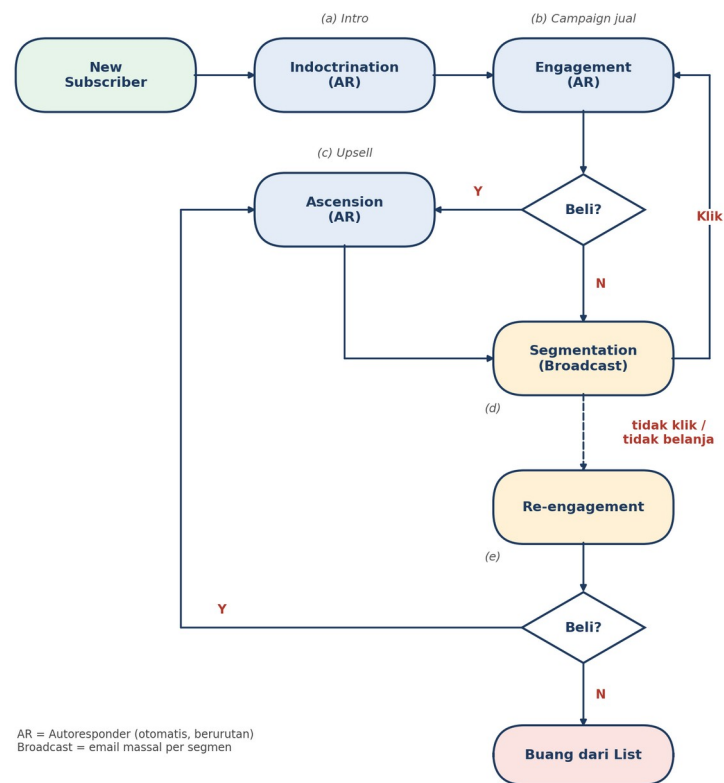

2. Promo calendar (Oct 2026 – Sep 2027)

Principle: plan the whole year so every campaign has a moment and a reason to be sent.

Month	Moment	Email angle	Main segment
Oct 2026	10.10 · Payday	Payday belanja bulanan + flash sale peralatan rumah	All B2C
Nov 2026	11.11 · Father's Day (12 Nov)	Fashion pria & perkakas rumah untuk Ayah	B2C fashion/household
Dec 2026	12.12 · Mother's Day (22 Dec) · Christmas · New Year	Paket masak akhir tahun, kado Hari Ibu; B2B: stok akhir tahun HORECA	B2C + B2B
Jan 2027	New Year · Payday	"Rumah rapi di tahun baru" — organizer & wadah	B2C household
Feb 2027	Chinese New Year · start of Ramadan	Paket sembako & stok sahur; B2B: restock warung/resto sebelum Ramadan	All
Mar 2027	Eid al-Fitr	Baju Lebaran, perlengkapan sambut tamu, hampers; B2B: parcel/THR kantor	All
Apr 2027	Post-Lebaran	Re-engagement pembeli musiman, restock dapur	Seasonal customers
May 2027	Eid al-Adha	Bumbu & alat masak olahan daging	B2C + HORECA
Jun-Jul 2027	School holidays & new school year	Back to school: fashion anak, alat tulis, perlengkapan bekal	B2C families
Aug 2027	Independence Day (17 Aug)	Paket lomba & konsumsi RT/RW, dekorasi	B2B/SME + B2C
Sep 2027	9.9 · Payday	Flash sale + akses duluan untuk VIP	VIP, repeat

Every month: payday broadcast (25th – 1st). 2027 dates for Chinese New Year, Ramadan, and Eid are estimates; check the official calendar before scheduling.

3. Email flow (customer journey)

AR = autoresponder (automatic, in sequence) • Broadcast = bulk email per segment

Principle: every contact moves through five stages. Buyers go up to Ascension; non-buyers go to Segmentation; inactive contacts get one last chance in Re-engagement, then leave the list.

Stage	What we send at Borma Dago	Next
New subscriber	Joins from web/app checkout, QR on store receipt, Borma for Business form, IG/TikTok voucher.	Indoctrination (B2B goes to the B2B track)
(a) Indoctrination intro • AR	3 emails: welcome + first-order voucher + how-to-order video; smart shopping tips; invite to follow TikTok/IG/YouTube.	Engagement
(b) Engagement sales • AR	Sales emails by interest: monthly bundles, household, fashion. Existing store customers who join via QR can start here.	Buy → Ascension No → Segmentation
(c) Ascension upsell • AR	After checkout: thank you, complementary products, 7-day free-shipping voucher with countdown.	Segmentation
(d) Segmentation broadcast	Weekly email per segment (fresh, household, fashion, B2B).	Click → Engagement Inactive 60 days → Re-engagement

Stage	What we send at Borma Dago	Next
(e) Re-engagement broadcast	3 emails: we-miss-you voucher, benefits reminder, "still want our emails?"	Buy → Ascension Still inactive → remove from list

4. Triggers & schedule

Principle: emails are sent automatically when something happens (sign-up, purchase, inactivity), on a fixed schedule: email 1, 2, 3.

When this happens	Send	Timing (D+2 = 2 days later)
Signs up / claims a voucher	Welcome series A1 → A2 → A3	Immediately → D+2 → D+4
Leaves items in the cart	Cart reminders F1 → F2 → F3	1 hour → 24 hours → 48 hours
Completes first order	C1 Thank you → C2 Recommendations → C3 Free-shipping voucher → C4 "Ends tomorrow" → C5 Last call	Immediately → D+1 → D+2 → D+8 morning → D+9 at 12:00
Last grocery order was 25–30 days ago	"Stok bulanan menipis?" reminder	Day 25–30
Signs up for Borma for Business	B2B welcome + wholesale catalog, then sales follow-up	Immediately → D+3
Birthday coming up	Birthday voucher	3 days before
No opens or clicks for 60 days	Re-engagement E1 → E2 → E3	Day 60 → 67 → 74

Email codes (A1, C3, E1, ...) refer to the ready-to-use emails in the **Appendix**.

5. Content ideas

Principle: mix useful content with sales content so emails are opened and looked forward to.

Type	Examples	Appendix
Value / tips	Smart monthly shopping tips, printable shopping-list template, 15-minute recipes, make-up tips	A2, A3
Recall value → offer	"Already used the shopping-list template?" → monthly bundle	B1
Category push	Household and fashion picks of the week (higher margin)	B2
"So others will love it"	Gift ideas before visits and holidays: fruit parcels, hampers, tableware	D2
DIY	15-minute tidy fridge/kitchen using containers sold at Borma	D3

Type	Examples	Appendix
Weekly segment promo	"Jumat Segar" for fresh products	D1
Giveaway	Year-end draw for purchases above a minimum amount	B3
B2B	Stock up before Ramadan and peak seasons, wholesale catalog, restock reminders	D4

Vouchers, free shipping, and giveaways: set voucher amounts and minimum order from margin per order and break-even basket size. **Free-shipping vouchers need management approval** (see The Offer). Prize draws usually need a permit; check with legal/Borma head office before announcing.

6. Platform, deliverability & review

Principle: send from a proper email marketing platform (lists, tags, automations) and authenticate the domain (SPF & DKIM) so emails reach the inbox, not spam.

- **Sender:** our own domain, e.g. promo@bormadago.com or halo@bormadago.com — not a regular Gmail address.
- **Platform:** needs automations, tags, and a connection to bormadago.com order data. Common options: Mailchimp, Brevo, MailerLite, Klaviyo — compare price and integrations.
- **SPF, DKIM, DMARC** on the bormadago.com DNS (the platform provides the records; start DMARC at p=none to monitor). Gmail and Yahoo require these plus one-click unsubscribe for bulk senders.
- **Consent:** email only people who signed up or ticked consent (UU PDP). Every email has an unsubscribe link.
- **Warm-up:** first weeks, send to the most active customers only, then increase volume gradually.

Why emails end up in spam: most businesses don't want to delete contacts from their list. But removing people who rarely open our emails or click our links is essential. When many recipients ignore our emails, Gmail and Yahoo treat us as unwanted and start sending **all** our emails, even to loyal customers, to spam. Run re-engagement (E1-E3), then remove anyone who still doesn't open or click. A smaller, active list beats a big, dead one.

- **Monthly review:** open rate, click rate, orders, revenue per email, and unsubscribes per segment. Keep what works, fix or drop what doesn't.

7. WhatsApp broadcast

- Use **WhatsApp Business** and message only customers who opted in (e.g. at checkout or the cashier).
- Same segments and promo calendar as email, but **shorter:** 2–4 lines, one link to bormadago.com or the app.
- Best for **time-sensitive** messages: flash sales, "Jumat Segar", B2B restock reminders, order updates.
- Don't over-send: too many messages lead to blocks and reports, which can get the number restricted.

D. Google Maps & Google Business Profile

Google Business Profile (formerly Google My Business) decides how Borma Dago shows up on Google Maps and local search.

1. Profile setup

- Create or claim the profile at **business.google.com** (Google Business Profile app). One account can manage several businesses/branches.
- **Category:** check what the top-ranking competitors use and match it.
- **Location** set precisely so customers can find us.
- **Serves customers outside location: Yes** — list the delivery areas we cover.
- **Website:** link to bormadago.com (and the B2B page), plus opening hours, photos, and regular promo posts.

2. Ranking factors

- **Location** (distance from the searcher).
- **Photos** taken at the store, regularly updated.
- **Rating & reviews**, including relevant words customers use (products, service).
- **NAP consistency** (Name, Address, Phone) across many websites.
- **Website references:** our map embedded or linked from other sites.

3. NAP & citations

- Write name, address, and phone **exactly the same everywhere**, down to every letter and abbreviation.
- **Competitor research:** pick a strong competitor that is not our nearest one, search their address (e.g. "Jl Cilamaya no 5") and phone number on Google, note which sites list them (directories, OLX, forums), then register Borma Dago on the same sites.

4. Photos

- Take photos at the store with the phone's location setting on: storefront, aisles, products, team, deliveries.
- For existing photos, a geotag can be added with geoimgr.com (upload → tag location → Write EXIF → download).

5. Map references

- **Embed the Google Map** on bormadago.com (contact page/footer) and share the map link in blog articles and social profiles.
- **Google My Maps:** create a new map, add the Borma Dago pin, use the target keyword in the title and description (e.g. "Supermarket & Supplier Horeca di Dago Bandung"), then share it publicly ("Anyone with the link") from Google Drive. Note: pins in My Maps only appear on that custom map, not on the main Google Maps.

6. Reviews — MOST IMPORTANT

MOST IMPORTANT PART OF SECTION D. Reviews are what customers see first on Google Maps before deciding to shop, and they strongly affect local ranking. Prioritize this above every other Google Maps task.

Target rating: at least 4.5, prioritizing branches with fewer than 100 reviews. Reviews are social proof and a local ranking signal.

Protect quality

- **Reply to every negative review** with the follow-up action management has taken.
- If not yet in place: add **customer satisfaction** to every employee's KPIs (smile, greet, attentiveness, speed, customer focus).

Grow volume

- **Google Review QR code** at the cashier.
- Cashiers invite customers to leave a review after each transaction.
- Ask B2B clients for a review after their first delivery goes smoothly.
- Invite customers to mention what they bought and how the service was (e.g. fresh vegetables, fast delivery); reviews with relevant words help local ranking.

Genuine reviews only. Never write reviews for customers, post reviews from our own or bulk accounts, or give incentives for Google reviews. Google removes these reviews and can restrict or suspend the profile.

Key Reminder: Customer Satisfaction Is Our Most Powerful Marketing Tool

Ads and content can bring a customer in once. Only a **great customer experience** turns them into a loyal customer who comes back and brings others.

Always protect three things:

- **Product quality:** fresh, complete, and as described.
- **Service:** fast, friendly, accurate orders, and complaints handled well.
- **Competitive pricing:** fair value for what customers get.

These are our most important targets:

- **Repeat purchase:** customers come back and order again.
- **Customer lifetime value:** total revenue from each customer over the whole relationship keeps growing.
- **Cohort revenue:** each group of new customers keeps generating revenue in the months after their first order.
- **Word of mouth:** satisfied customers recommend Borma Dago & Bormadago.com to other business owners and families, for free.

Appendix: Ready-to-Use Email Templates

Templates are in Indonesian, ready to send. Text in [] is to be filled in (name, voucher amount, date, link).

Series	Emails	When
a. Welcome (Indoctrination)	A1 Welcome + voucher · A2 Shopping tips · A3 Follow us	Sign-up: immediately, D+2, D+4
b. Sales (Engagement)	B1 Monthly bundle · B2 Household push · B3 Giveaway	D+7, D+10, seasonal
c. After purchase (Ascension)	C1 Thank you · C2 Recommendations · C3–C5 Free-shipping voucher + reminders	Immediately, D+1, D+2, D+8, D+9
d. Segment broadcasts	D1 Jumat Segar · D2 Gift ideas · D3 DIY · D4 B2B pre-Ramadan	Weekly / seasonal
e. Re-engagement	E1 Voucher · E2 Benefits · E3 Last confirmation	Day 60, 67, 74 of inactivity
f. Abandoned cart	F1 Reminder · F2 Need help? · F3 Last reminder	1 h, 24 h, 48 h

Voucher amounts and minimum orders are placeholders: set them from margin per order and break-even basket size. **Emails with free shipping (B2, C3–C5) can only be sent once free shipping is approved by management.**

a. Indoctrination (Intro) — 3 emails

A1 Welcome + voucher pertama | Kirim: langsung setelah daftar

Subjek: Selamat datang di Borma Dago, [Nama] — ada hadiah kecil untuk Anda

Preview: Voucher Rp[20.000] untuk belanja pertama di bormadago.com

Halo [Nama],

Terima kasih sudah bergabung. Sekarang belanja kebutuhan rumah dari Borma Dago bisa langsung dari HP — tanpa antri, tanpa angkat kantong berat.

Sebagai salam kenal, ini voucher untuk belanja pertama Anda:

Kode: HALODAGO — potongan Rp[20.000], min. belanja Rp[150.000], berlaku 7 hari.

Belum pernah pesan online? Tonton video 60 detik cara order di bormadago.com, dari pilih produk sampai pesanan diantar: [link video]

Di email berikutnya kami kirim trik belanja bulanan supaya budget lebih awet.

Salam hangat,

Tim Borma Dago

[Pakai Voucher Sekarang]

A2 Value: tips belanja hemat | Kirim: H+2

Subjek: 5 trik belanja bulanan supaya gaji nggak cepat habis

Preview: No. 3 sering dilupakan, padahal paling hemat

Halo [Nama],

Ini 5 trik yang dipakai banyak ibu rumah tangga pintar:

- Tulis daftar belanja per ruangan (dapur, kamar mandi, cucian) — tidak ada yang ketinggalan, tidak beli doble.
- Kebutuhan tahan lama beli sekaligus sebulan; sayur dan buah cukup per minggu.
- Bandingkan harga per gram/ml, bukan per bungkus. Kemasan besar belum tentu lebih murah.
- Belanja setelah makan — belanja impulsif jadi jauh lebih terkendali.
- Siapkan keranjang di bormadago.com dari awal bulan, checkout saat promo tanggal gaji.

Artikel lengkapnya + **template daftar belanja bulanan** yang bisa di-print ada di blog kami.

P.S. Voucher HALODAGO Anda masih berlaku [5] hari lagi.

[\[Unduh Template Daftar Belanja \]](#)

A3 Ajak follow & subscribe | Kirim: H+4

Subjek: Resep 15 menit, trik rumah rapi & promo kilat — semua ada di sini

Preview: Ikuti Borma Dago di TikTok, Instagram & YouTube

Halo [Nama],

Tiap minggu kami bagikan konten singkat yang praktis: resep 15 menit dari bahan yang ada di Borma, DIY rapi-rapi rumah pakai wadah murah, dan info promo kilat yang hanya diumumkan di media sosial.

Mau dapat duluan? Ikuti kami:

- TikTok [@akun] — resep & promo kilat
- Instagram [@akun] — katalog & info stok baru
- YouTube [nama channel] — tutorial DIY & tur produk

Satu lagi: pindahkan email ini ke tab **Utama** supaya info promo dari kami tidak terlewat.

[\[Ikuti di TikTok \]](#)

b. Engagement (Sales Campaign)

B1 Recall template → paket hemat | Kirim: H+7

Subjek: Sudah dipakai template daftar belanjanya, [Nama]?

Preview: Kalau sudah, ini langkah berikutnya supaya makin hemat

Halo [Nama],

Minggu lalu kami kirim template daftar belanja bulanan. Semoga membantu!

Langkah berikutnya: cocokkan daftar Anda dengan **Paket Hemat Bulanan** minggu ini — beras, minyak, gula, telur, dan sabun cuci dalam satu paket, lebih hemat Rp[xx.000] dibanding beli satuan.

Pesan sebelum [tanggal], diantar ke rumah [area layanan].

[\[Lihat Paket Hemat Bulanan \]](#)

B2 Dorong kategori peralatan rumah | Kirim: H+10

Subjek: Mau dapur rapi & awet tanpa harga mahal?

Preview: Diskon s.d. [30]% untuk wadah, alat masak & organizer

Halo [Nama],

Rumah yang nyaman sering dimulai dari hal kecil: wadah bumbu yang seragam, wajan yang tidak lengket lagi, kulkas yang gampang dicari isinya.

Pilihan minggu ini:

- Set wadah kedap udara [merek/ukuran] — Rp[harga]
- Wajan anti lengket [ukuran] — Rp[harga]
- Rak organizer dapur — Rp[harga]

Gratis ongkir untuk belanja peralatan rumah min. Rp[200.000] sampai [tanggal].

[Belanja Peralatan Rumah]

Internal note: fashion and household goods have higher margins, so make them the lead categories in B2C Engagement emails.

B3 Giveaway bulanan | Kirim: awal Desember

Subjek: Giveaway Desember: belanja di bormadago.com, bawa pulang [hadiah]

Preview: Setiap belanja Rp[200.000] = 1 kesempatan menang

Halo [Nama],

Akhir tahun, kami mau berbagi. Setiap belanja min. Rp[200.000] di bormadago.com atau app Borma Dago selama [periode] otomatis dapat 1 kupon undian.

Hadiah: [hadiah utama] untuk 1 pemenang, dan [hadiah hiburan] untuk [jumlah] pemenang.

Pemenang diumumkan [tanggal] di Instagram [@akun].

[Mulai Belanja]

Internal note: prize draws usually need a permit; check with legal/Borma head office before announcing.

c. Ascension (Upsell after purchase)

C1 Thank you | Kirim: langsung setelah bayar

Subjek: Pesanan #[nomor] sudah kami terima — terima kasih, [Nama]!

Preview: Tim kami sedang menyiapkan belanjaan Anda

Halo [Nama],

Terima kasih sudah belanja di Borma Dago. Pesanan Anda sedang disiapkan dan akan [diantar / siap diambil] pada [jadwal].

[Ringkasan pesanan otomatis]

Ada pertanyaan? Balas email ini atau chat WhatsApp kami di [nomor].

[Lacak Pesanan]

C2 Rekomendasi pelengkap | Kirim: H+1

Subjek: Pelengkap yang pas untuk belanjaan Anda kemarin

Preview: Dipilih berdasarkan pesanan Anda

Halo [Nama],

Semoga pesanan kemarin sudah sampai dengan baik. Berdasarkan belanjaan Anda, mungkin ini berguna:

[Blok produk dinamis — contoh: beli beras → wadah beras kedap udara; beli sayur → pisau & talenan; beli deterjen → keranjang laundry]

[Lihat Rekomendasi]

Internal note: prioritize recommendations from high-margin categories.

[Belanja Promo Segar]

D2 "Supaya disukai orang lain" — segmen B2C | Kirim: menjelang libur/Lebaran

Subjek: Mau berkunjung ke rumah mertua? 5 buah tangan yang selalu disambut hangat

Preview: Praktis, tidak pasaran, bisa dipesan dari rumah

Halo [Nama],

Buah tangan yang pas bikin kunjungan jadi lebih berkesan. Lima ide yang aman untuk semua usia:

- Parsel buah segar pilihan
- Paket kue kering & teh premium
- Set peralatan makan atau wadah saji
- Paket sembako premium untuk keluarga besar
- Hampers custom — pilih isi sendiri, kami bungkuskan

Semua bisa dipesan di bormadago.com dan diambil di toko atau diantar.

[Lihat Ide Buah Tangan]

D3 DIY — segmen Household | Kirim: Minggu pagi

Subjek: DIY 15 menit: bikin kulkas rapi pakai wadah Rp[xx] ribuan

Preview: Sebelum-sesudahnya bikin puas

Halo [Nama],

Kulkas penuh tapi susah cari barang? Coba cara ini:

- Keluarkan semua isi, buang yang sudah lewat tanggal
- Kelompokkan: sayur, protein, bumbu, minuman
- Pakai wadah bening berlabel — yang lama di depan, yang baru di belakang

Video lengkapnya ada di TikTok kami. Semua wadah yang dipakai tersedia di bormadago.com.
